

Model 1601 LED Heliport Recessed Flushlight

Applications

Our omnidirectional LED Heliport Recessed Flushlight is designed to be almost flush with the ground surface and is used in a variety of helipad lighting applications.

- Perimeter Lights: Outlines the heliport landing area
- Landing Direction Lights: Indicates the preferred approach
- Threshold Lights: Marks the front edge of the heliport

Features

- Cost-Saving, Energy-Efficient LEDs
 - Long-lasting LED lamp uses less power, generates less heat and reduces the frequency of lamp changes
- Flush Mounted
 - Recessed, almost flush with the surface
 - Permits the obstruction-free movement of equipment and personnel
- Optically Designed Lens
 - Omnidirectional beam assists the pilot in maintaining correct glide path
 - Lens made of non-breakable plastic (Lexan)
- Heavy Construction
 - Housed in a heavy, machined, cast aluminum enclosure
 - Rugged cast aluminum guard fits precisely to protect the lens and optics without obstructing emissions
 - Lens guard with 6 spokes available
- Easily Installed
 - May be recessed in soil or solid aggregate or bolted to the edge of an elevated heliport
- Weatherproof
 - Entire fixture is fully machined and double gasketed to make it weathertight

Specifications
