Heliport Perimeter Light Model 1000

Outlines the Landing Area

The Heliport Perimeter Light, Model 1000 has a low profile and outlines the heliport with a string of yellow lights.

Surface Mounted

It has two extension tabs to permit bolting to a concrete slab for easy surface mount installation.

Optically Designed Heat Resistant Glass Lens

The optically designed lens has a high vertical angle to accommodate the steeper landing slope of the helicopter approaches. It is aviation yellow, heat resistant glass. Available in Blue, Red and Yellow. The Perimeter Light meets and exceeds recommendations by worldwide authorities.

Cast Aluminum Construction

The fixture is housed in a heavy-machined cast aluminum case that is weather tight and has two mounting tabs. A stainless steel wire guard protects the lens from breakage. It is finished in orange polyester powder coating for durability.
