AV70 Ground Stake Mount Avlite

Avlite Systems ground stake mount has been specifically developed to complement the AV70 solar aviation light. The components of the ground stake mount consist of a mounting plate, mounting stake, frangible column and grass guard.

All components (excluding hardware) are made from heavy duty aluminum, subject to 7-stage powder-coating in high-visibility yellow color.

Major Benefits

- 7-stage powder-coated heavy duty aluminum components
- High-visibility yellow color
- 316-grade stainless steel hardware
- Individual replacement parts available
- Safe, cost effective installation solution
